
PLANNED IMPROVEMENT FOR THE SCHOOL AND DISTRICT

This is the final section of the school report card in which your school and district provide information below on areas of success and areas for planned improvement based on your school's improvement plan.

(For report cards disseminated electronically, this information may be provided in a separate document due to differences in the software used. If you are unable to locate this document, please contact your local school or district office.)

Overall, the report card indicates that our students are performing at a high level of achievement in the areas of reading and math. We intend to continue our efforts at maintaining this level of performance and working to move more students from the meets category to the exceeds category in each of these two instructional areas.

A review of the ISAT results indicates a need for improvement in the area of writing. Our students performance was lower than expected and we plan to address this area of concern.

Our goals for the coming school year are:

Staff will implement a Writer's Workshop program in all of the classrooms during the 2009-2010 school year.

Staff will work to improve student reading performance by fully implementing a guided reading program.
