

McHenry Elementary School District 15
1011 N. Green Street
McHenry, Illinois 60050

Dear Parents/Guardians:

During the 2007-2008 school year, the district started phase one of implementation of HomeLogic. HomeLogic is a web-based tool designed to enhance parent-school communication. HomeLogic allowed parents to review their children's schedule, attendance. We are please to inform you that for the 2008-2009 school year we will be expanding this program to allow parents to see information about their students' academic performance.

HomeLogic's interface is a simple point and click Internet environment. You need no special training or instructions to use the tool. If you have more than one student, at any District 15 school, a single username and password will allow you to navigate between children. Usernames and passwords help to keep your student's information secure.

To request parental access to the HomeLogic system, please fill out the form below and return it to the school in which your student attends, by April 30th. A username and password will be mailed to you. If you already have a username and password you do not need to resend this form. If you have additional students attending McHenry Elementary School District 15 for the 2008-2009 school year then please make the appropriate changes below.

Please select one of the following:

- I already have a username and password. I need the information below added to my account
- I am interested in accessing HomeLogic. Please send me a username and password

Parent's/Guardian's Name:
Mailing Address:

Please complete the following information:

School Name:	Name of Student(s)
Duker School	
Edgebrook School	
Hilltop School	
Landmark School	
McHenry Middle School	
Parkland School	
Riverwood School	
Valley View School	

Thank you in advance for participating in this exciting, new technology. It is our belief that this new service will help to give you a better understanding of your student(s) school experience and achievement. If you have any questions about HomeLogic, please contact District 15's Technology Department (815) 385-7210.
